**spraytec**<sup>®</sup>

## Description

**FULLTEC ULTRA**

**Fulltec Ultra** utilizes Spraytec Plant Health Technology and the right level of Manganese to prevent White Mold (*Sclerotinia stem rot*) caused by Glyphosate-induced Manganese deficiency and other leaf diseases in soybeans. Fulltec Ultra also ensures a high-quality spray application with Spraytec Application Technology.

### Main Benefits:

**Availability**

Nutrients in EDTA form ensure Manganese is fully available during the application.

**Pesticide Compatible**

Fulltec technology prevents incompatibility with different pesticide mixtures and improves the quality of the application.

**Harmless**

Fulltec Ultra prevents major diseases in soybeans by reducing the injuries and stresses caused to the plants by chemical applications.

## Directions

Crop	Rate	Timing
Soybeans	4.0 oz/acre	V3 - R4
Cereals	4.0 oz/acre	-

## Results

**FULLTEC ULTRA** Check
